# -charm of youth "that schoolgirl complexion"

The simple rule in daily skin care to follow if you seek it

WHEN urged to "be" an improved skin complexion before Palmolive cream, women were told "not to say a word more." They were told to keep their mouths shut and make sure they do not say a word more. This is the only rule in skin care to follow if you seek it. The only rule in skin care to follow if you seek it. The only rule in skin care to follow if you seek it.

THE women of today know one goal there is all about it: beauty. And they do it to keep their skin. For the skin is the gateway to the soul, and it is so young.

Keep your skin healthy and beautiful. Use properly, it is easy to do. The thousands of youthful women living just like this, just now, are on every side today, just the point beyond question.

Used by leading skin specialists, this rule is based on keeping the skin and pores clean of any serious accumulation. Its whole secret is the KODOL soap and water. A fine complexion is a result of a long life. Palmolive, made for us, is the only soap to follow the complexion. Others may prove too harsh.

The rule to follow if you seek a good complexion is your goal.

So, begin to improve skin, and you will have the skin of youth, the skin of youth, the skin of youth.

With your face gently washed with Palmolive Soap, morning and night, and then it is to keep the skin. For the skin is the gateway to the soul, and it is so young.

If your skin is not so young, it is to keep the skin. For the skin is the gateway to the soul, and it is so young.

The pores and clogs of your skin. Do not let your skin be so young. For the skin is the gateway to the soul, and it is so young.

And the result

Do not let your skin be so young. For the skin is the gateway to the soul, and it is so young.

And it is not so little that makes for the skin. For the skin is the gateway to the soul, and it is so young.

KEEP THAT SCHOOLGIRL COMPLEXION

INTERNATIONAL

## Trucks to the Frozen North

IN THE restless heart of the upper Dominion International Speed Trucks are held in reserve. The McIntyre Fur Company, Ltd., Edmonton, Alberta, operating the northwestern inland fisheries on the North American continent, takes them into the Great Slave Lake region, in a tribute to the north as Greenland, to fish for whitefish through the ice.

Last winter, in spite of the hardships of heavy snows, with temperatures falling to 85° below zero, the McIntyre International Speed Trucks trans-

ported 1,200,000 pounds of fish to headquarters, besides serving the crews of fishermen with a winter hauling of supplies.

The splendid qualities, for which Internationals have been called to the difficult hauling problems the world around, are in reserve in every Speed Truck and every Heavy Duty Truck of International Harvester manufacture. Every owner will be given faithful performance by the Internationals he buys, and Service for well find always close at hand.

To manage this it is at times necessary to move the truck with great effort, as the truck is the only one.

The unusually complete service organization maintained throughout Canada by International Harvester makes International Truck owners feel safe to engage in the most spectacular operations with their trucks. Even the trucks of the McIntyre Fur Company, Ltd., operating for north of ordinary truck routes, are within reach of dependable factory-standard service at Edmonton, southwestern Harvester branch.

So it goes, all over the Dominion. St. John on the East, renders the same experienced service that was made available at Vancouver on the West. And in between, sixteen more Company-owned branches also keep International owners happy by meeting them the kind of service from their trucks that is built into them at the factory.

For a complete list of the International Harvester trucks and the International Harvester trucks, see the International Harvester trucks and the International Harvester trucks.

# HULSON Super-Six

# Your Ear Tells You

# THIS is the handiwork of Genius

The Kolster 1 D-4. See Table 2 for complete specifications—Price \$200.

ONLY in Kolster Radio can you find such an impressive array of fine features at such a reasonable price. Upon this important fact rests the tremendous success the Kolster has won for itself with discriminating buyers of radio everywhere.

The Kolster—in each model—is the ultimate in exterior charm. Bristling in appearance—distinctive in design and finish—it is a piece of furniture that is always harmonious and in good taste.

Simplicity of operation has been attained by the Kolster Single Control and the Kolster Selectivity and Sensitivity Adjustment.

There is no tuning and turning of numerous dials. Just an easy turning of the Kolster regulator from one station to another.

Tuning is further simplified by the station selector which is marked in medium wave length.

Important advancements in design and construction—achievements of Dr. Frederick A. Kolster—are responsible for the remarkable performance which makes the Kolster so undeniably superior to other sets.

These superlatives are at once apparent when you see and hear a Kolster.

The Kolster 1 D-4. See Table 2 for complete specifications—Price \$100.

The Kolster 1 D-4. See Table 2 for complete specifications—Price \$100. The Kolster 1 D-4 with Single Control—Price \$100. The Kolster 1 D-4 with Single Control—Price \$100.

KOLSTER Radio owes its remarkable qualities to Dr. Frederick A. Kolster—the man, who, after years of research, perfected this finest of all radio receiving sets and succeeded, while doing so, in combining definite superiority of performance with moderate cost.

In this master achievement of a far-sighted and brilliant engineer, Dr. Kolster created an entirely new standard of "value-per-dollar" in radio.

You realize this at once when you hear the Kolster, for its perfected sound reproduction—its amazing realism and quality—are instantly and unmistakably apparent to your ear.

No howls or squeals. No background noises or over-lapping of stations. Music or speech is reproduced clearly and faithfully as you have never heard it by radio before.

## The True Test of Superiority

We could go on to describe in detail the technical reasons for Kolster superiority, but this would prove nothing to you.

Forget about technicalities. Judge radio and buy radio on actual performance—for this is the true test of quality and superiority.

Hear the Kolster! Compare it in total reproduction—hair line selectivity—distance—ease of operation—not only with sets at the same price but with those costing very much more.

Then you will have a true idea of why the Kolster offers the greatest "value-per-dollar" in radio. Remember, it's what you hear that counts!

Your ear will instantly tell you, more convincingly than any technical explanation ever could, of Dr. Kolster's remarkable achievement.

## Manufactured in Canada

Kolster Radio is manufactured by Canadian Brandes Limited—one of the pioneers in the Canadian radio industry. It comes to you backed by the guarantee and reputation of the Canadian Company.

There is a Kolster Radio dealer near you, who will be glad to arrange for a home demonstration at your convenience. Mail the coupon to-day for our booklet giving full particulars about Kolster Radio and for the name and address of your nearest Kolster dealer.

ASK THE MAN WHO OWNS ONE

*This wonderful enamel  
makes even a cement  
floor... smooth... dry...  
clean and beautiful*

**DOWN** in your basement there is a gritty, dust-laden cement floor. Two coats of Berry Brothers' Linoxil Floor Enamel would make it smooth, lustrous and easy to keep clean.

Little effort and expense would put unused space to good purpose. A playroom could be provided for the children, a billiard room for the family, a workshop for the boy or—the one thing all men want and few possess—a den.

Almost any rough, unsightly cement or wood surface can be transformed into a colorful, practical floor by applying this rich-toned, durable enamel.

Here is a product that contains the greatest wood preservative and rust preventive known to science. It gives satisfaction on any surface, including canvas and metal, and withstands exposure and hard use to a surprising degree. It is widely used in hospitals, schools and other large buildings.

Dealers who offer doubtful substitutes can quickly obtain the unexcelled enamel for you—if you want. Do this and you will be repaid by getting enamel that wears indefinitely and costs no more than paint.

(Linoxil Floor Enamel is supplied by all manufacturers of Paints, Enamels, Varnishes, Oils, and other products of the Berry Brothers' Linoxil Company, Ltd., 100, Victoria Road, London, E.C. 1, England, and by all manufacturers of Paints, Enamels, Varnishes, Oils, and other products of the Berry Brothers' Linoxil Company, Ltd., 100, Victoria Road, London, E.C. 1, England.)

## Something New Under the Sun

*Excursions into the realm of new ideas in decoration always are refreshing*

By ANNE ELIZABETH WILSON

**NOW** there are no decorations, even though one may not choose to accept them as their existing identity or go through a great deal and "take it easy" in selecting, even though one may prefer existing. By the same token, it is the interest of existing, different, that makes it worth while to carry the field of decoration or decoration, generally. Though there may be nothing more like the "new" decorative scheme, which one may wish to embrace fully, there may be a suggestion or an adaptation which will help solve some problem of home-making or beautification.

### The Popularity of Wrought Iron

**WROUGHT-IRON** has been growing steadily in popularity as a decorative medium of late. Some of the reasons which have led to its being so popular are: its beauty, its strength, its durability, its adaptability to a wide range of uses, its being used successfully for exterior work, and its being used in a variety of styles, from the most modern to the most traditional.

Within the house, the display of design and beauty of wrought-iron has been a long time in coming. It has been a long time in coming, but it is now a fact. It is now a fact that wrought-iron is being used in a variety of styles, from the most modern to the most traditional. It is now a fact that wrought-iron is being used in a variety of styles, from the most modern to the most traditional. It is now a fact that wrought-iron is being used in a variety of styles, from the most modern to the most traditional.

degrees of individuality with simplicity which is "new" and is no longer possible for the ordinary thing of the world to be made in the same way.

### Decorations in Nature

Yesterday—  
perhaps a gift of bric-a-brac

## Today—the means of entertaining from the very start...

In the homes of the younger set, gay with many friends, they seem to entertain constantly—spontaneously. Such ready, carefree hospitality, even on a modest income, is so much easier today than it was for the older generation. Now a *complete* silverware service is available at a cost most surprisingly moderate! Today, for the first time, you will find in the "Case of Plenty" an assortment without a superfluous item, but ample for all daily needs and for entertaining, in Wm. Rogers & Son Silverplate—guaranteed to give satisfaction without time limit. **Q** This complete service

comprises eight each—stainless steel medium knives—solid handle, medium forks, dessert (oval bowl soup) spoons, coffee spoons, iced tea spoons, salad forks, butter spreaders, 16 tea spoons—a double quantity—3 table spoons; and service pieces for all occasions, cold meat fork, berry spoon, sugar shell, butter knife, pickle fork, round server, gravy ladle, cream ladle, dessert server, for \$90.00, which even includes a sharp two-piece stainless carving set—86 pieces all together. **Q** The Gift of Hospitality is the "Case of Plenty." Ask for it by name—in a choice of beautiful patterns.

*At your favorite dealer's*

Single pieces or other appropriate smaller sets at prices far lower than you would expect, for example—tea spoons, \$4.00 the dozen. 26 piece set with stainless knives in Greengold Case, \$22.00.
